

# IC 2003-1 TO AFI 91-114, SAFETY RULES FOR THE INTERCONTINENTAL BALLISTIC MISSILE SYSTEMS

22 MAY 2003

## ★ SUMMARY OF REVISIONS

This change corrects the paragraph numbers depicting conditions where increased security is required at a missile launch facility. A star (★) indicates revision from the previous edition.

★ 6.3. A Two-Person Concept team must continuously guard an LF, without an RS present, that contains any current operational codes if any of the conditions in paragraphs 6.2.1. through 6.2.6. exist.

★ 6.4. Two individuals qualified under the Two-Person Concept, one of whom may be in rest status on site, must continuously guard an LF without an RS present that contains any certified critical components or operational keying variables and any of the conditions in paragraphs 6.5.1. through 6.5.4. exist.

★ 6.6. Two individuals qualified under the Two-Person Concept, one of whom may be in rest status on site, must continuously guard an LF without an RS present, with one or more current operational codes installed and any one of the conditions in paragraphs 6.5.1. through 6.5.4. exist.
